TECHNICAL DATA SHEET AR 65 Super

Engine	
Make: Deutz Die Type: Power***:	sel engine TD 2011 LO oil/air coole 51.3 kW (70 hp
Max. torque: Stroke: Cylinders:	at 2200 min [−] 240 Nm at 1600 min [−] 3243 cm 4 in lin
Electrical System:	Operating voltage 12 Battery 12 V/88 A Alternator 14 V/80 A Starter 12 V/2,3 kW

Drive

- Output regulated hydrostatic drive with pressure cut off and closed circuit acting on all 4 wheels
- Speed with standard tires: Operating speed range 0-6,5 km/h Road speed range 0-20 km/h Optional high speed 0-40 km/h
- Ist and 2nd hydraulic gear can be engaged under load, forward/backward travel also Activation forward/backward travel and
- speed ranges via ATLAS joystick • Drive operated by accelerator and
- separate inching pedal for best distribution of the hydraulic power for thrust and lifting forces

Rigid axles with planetary reduction gears in wheel hubs, electrically connected 100% differential lock in front and rear axle.

Srakes

Standard brake: Multi-disc brake in oil bath acting on all 4 wheels. Supplementary brake functions via inching pedal and hydrostatic drive acting on all 4 wheels.

Parking brake: Parking brake as springloaded brake acting on all 4 wheels. In case of standstill of engine the spring-loaded brake is automatically re-activated.

Steering

- Fully hydraulic center pivot steering • Front and back wheels follow the same track
- Steering angle 40° to each side, $\pm 12^{\circ}$ angular movement in rear of vehicle
- Operating pressure of steering hydraulics 175 bar
- Emergency steering function

Hydraulic system

- Gear type pump (internal geared wheel pump) for loading and steering hydraulics Priority valve favoring steering hydraulics
- Lowering brake independent of load • 3rd section serial
- Loading hydraulic hydraulically pre-activate via ATLAS joystick including float position

• Powerful and solid Z-kinematics with high

• Locking device acc. to German StVZO

• Comfortable access to cab from both side

• Single lever operation via ATLAS joystick

Operating pressure 265 bar Delivery of pump 50.5 l/min

• Hydraulic quick change device

and 4-stage fan

stow facility

screens

Standard equipment

• Rear driving mirrors, foldable

Control lights for speed range,

• Lights acc. to German StVZO

with adjustable right arm rest

• Sound absorbing ROPS cab

Windscreen wipe and wash

• Adjustable steering column

• Sun visor, coat hook, ceiling lamp,

• Heat protection glazing with large tinted

• Control lights for engine oil pressure,

overheating, hydraulic oil temperature, battery power, parking brake, air filter

Central dashboard with indicators for preheating, engine temperature, fuel,

unit in front and rear

working hour meter

• 4th section front or rear

Slow drive inching pedal

• Extended lifting frame

• Main battery switch

• Special colors and oils

• Cyclone dust separator

Trailer coupling

• High speed version 40 km/h

working cylinders

• Load check valve for lifting and

Options

Individually adjustable driver's seat

Engine oil heating with heat exchange

forward/ backward travel

• Engine oil preheating 220 V More options upon request Loading equipment

O Tires

Radio

Warning beacon

Standard: Activation of all functions via ATLAS joystick

12.5 – 20 MPT – Multi-purpose tires for sand • Parallel movement while using pallet forks and gravel surfaces, woodland, roads and • Automatic shovel return to excavation Daths

• Heatable and air cushioned seats

• Air conditioning, auxiliary heating

• Anti-theft device with code stick

• ATLAS disagnostic system (ADS) for

monitoring engine parameters with

integrated electronic anti-theft device

• Doors with sliding windows right and left

 Joystick with integrated proportional steering for 3rd section (only with ADS)

Special tires:

400/70 R20 XMCL – Wheel loader tires for clay, sand, gravel, fields and greenland, fortified roads 405/70 R20 EM – Construction machine tires for clay, sand, gravel, asphalting, roads, gardening and landscaping

More special tires upon request
